

Individual Thanksgiving Dinners

Warming Instructions: All items are fully cooked.

Microwave:

Vent lid and Reheat meal in microwave in rounds of 2 – 3 minutes. Stirring and rotating products is suggested for best results.

Reheating in the oven: Preheat oven to 300°F

Spread contents of meal on an oven safe baking dish or pan and cover with foil. The more you spread out the contents, the faster it will reheat.

Whole Bone-IN Turkey

Warming Instructions: Turkey is cooked, needs to be warmed to 165°F

- Leave turkey in the provided roasting bag
- Place in roasting pan and puncture with 6-8 holes
- Place in pre-heated oven for one and a half (1.5) hours or until internal temperature reaches 165°F
- Remove and allow 10 minutes for the turkey to rest before slicing
- * Do not allow oven temperature to exceed 400 degrees
- * Keep bag away from oven walls

Ala Carte Items – By the Pan

Warming Instructions – Preheat oven to 275 degrees

Rotisserie Turkey – Leave wrapped in plastic and foil, place in preheated oven for approximately 60-75 minutes (or until desired serving temperature).

Homestyle Stuffing - Leave wrapped in plastic and foil, place in preheated oven for approximately 45-60 minutes (or until desired serving temperature). At which time it is sufficiently warmed, remove from the oven and turn temperature up to 400 degrees. Place back in the oven (UNCOVERED) about 10-15 minutes to lightly crisp the top.

Yukon Gold Whipped Potatoes - Leave wrapped in plastic and foil, place in preheated oven for approximately 60-75 minutes (or until desired serving temperature).

(Over for More)

Green Bean Casserole - Leave wrapped in plastic and foil, place in preheated oven for approximately 60-75 minutes (or until desired serving temperature). At which time it is sufficiently warmed, remove from the oven and turn temperature up to 425 degrees. Add Crunchy onion topping and place back in the oven (UNCOVERED) about 5 minutes to lightly warm the topping just prior to serving.

Sweet Potato Casserole - Leave wrapped in plastic and foil, place in preheated oven for approximately 45-60 minutes (or until desired serving temperature). At which time it is sufficiently warmed, remove from the oven and turn temperature up to 425 degrees. Place back in the oven (UNCOVERED) about 15-10 minutes to lightly brown the top.

Macaroni & Cheese - Leave wrapped in plastic and foil, place in preheated oven for approximately 60-75 minutes (or until desired serving temperature).

Pasta con Broccoli & Cavatelli - Leave wrapped in plastic and foil, place in preheated oven for approximately 60-75 minutes (or until desired serving temperature).

We use commercial quality plastic wrap that is oven safe up to 275 degrees when left covered with foil. This process creates a steam and insulates the food from drying out. Take proper precautions when unwrapping and be careful to avoid the escaping steam.
